

YOUTH SUCCESS: THE CHANGE AGENT

Education is the single most influential factor in ensuring that children grow up to do as well or better than their parents. It also leads to higher incomes, healthier families, lower crime, a stronger workforce and a lifelong sense of self-worth and dignity.

That is why United Way of Santa Cruz County (UWSCC) provides a holistic approach in driving lasting change. By removing barriers that directly impact student success (like hunger, homelessness, financial instability or lack of adult mentoring), UWSCC is taking steps to break that cycle.

OUR GOAL:
Prepare youth
for success in
school and life

Prevention → Change

By focusing on prevention, as opposed to intervention, UWSCC believes it can change the course for future generations of children and families. That means pursuing a holistic solution and removing obstacles to education by:

- Preparing children to enter Kindergarten
- Increase youth proficiencies in English and Math
- Increase youth development, positive activities

All of these factors help children achieve their highest potential.

SNAPSHOT
